As soon as the new fall dresses are made, the average woman will never neglect any duty that calls her out to the gatherings of the women.

Married men could give lots of advice to young men about getting married, but it would be a measley married man that would voluntarily do so.

In Scotland the other day 700,000 gallons of whiskey were burned up. Whiskey over here is safe, as the part which is branch water doesn't mind fire.

At their meeting in Charlotte on Tuesday the Southern cotton manufacturers demanded "more for yarns." Newspaper men would also like to get more for the yarns they spin.

When a man comes into the twilight as a chaser after office every thing mean that he ever did is brought up against him. Roosevelt is now accused of being the author of an alleged poem.

We have lost patience with old Uncle Joe Cannon. He has turned out to be a rasp-voiced, vindictive old politician. We felt that the Charlotte Observer was right a long time ago when it expressed a tired feeling for the amount of slopping over that was going on over "Uncle Joe."

Roosevelt says in his letter of acceptance: "We have nothing to conceal." Geel what a liability that places him under to the country. The Democrats in Congress tried to see what it was that he were hiding in the rotten departments at ashington, but he wouldn't show his hand.

The Chinese Government has made a demand upon the United States Government for $40,000 for the killing of a Chinaman by a mob in Nevada. The mob will likely not deny that it killed the Chinaman, but it will be surprised to learn that it hit a chink that was worth more than 40 cents.

Here we have it. Up North the Crumpackerites are denouncing the South for disfranchising the negro. "Away down in Georgy" a Republican candidate for Congress is raising sand by a charge that his Democratic opponent "voted negroes seven times round" in the last election. It is owing to how negroes vote whether Republicans want them at the polls or not.

Theatrical Society Event.

The very first society event in the theatrical line will take place at the Academy Saturday night of next week when the well known New York success, "The Marriage of Kitty," will appear. It is one of the brightest of comedies and made a big hit in New York last season.

THE SUPERIOR COURT

Chris. Eilers Gets One Year for Murderous Assault Upon His Wife.

SUBMITTED TO THE OFFENCE.

Boys Not Guilty of Entering Third Street Residence, But Guilty of Receiving. Grand Jury to Investigate the Negro's Murder—Notes.

Superior Court continued its session yesterday until 7 o'clock in the evening. Judge Moore is making an excellent presiding officer and his efforts toward clearing the docket of the unusually large number of cases are being ably seconded by Solicitor Duffy. With the possible exception of the burglary case and that of the Herring brothers and young Jones, recently charged with murder, all the matters will likely be cleared from the calendar by the expiration of the one-week term. All of yesterday morning's session was consumed in completing the trial of the two boys charged with entering Mr. Herbert Smith's residence, on Third street, last month, and stealing therefrom a watch and other articles of trifling value. Testimony for the defendants was heard yesterday and the balance of the morning hour was taken up with argument by counsel to the jury—Marsden Bellamy and Woodus Kellum, Esqs., for the defendants and Solicitor Duffy for the State. The jury retired a little after noon and came in with a verdict during the dinner recess of the court. The verdict was not guilty of larceny, but guilty of receiving the watch, knowing it to have been stolen, the same being valued at $10. Each defendant was recommended to the mercy of the court on account of his youth. As the defendants were not in court when the verdict was brought in, Judge Moore said he would continue judgment until this morning, the defendants meantime remaining under their present bond.

The only other cases of interest in court yesterday were those against Chris. Eilers, who made the murderous attack on Mrs. Eilers at Carolina Beach about two months ago and then turned his own pistol upon himself in an unsuccessful attempt at suicide. The particulars of the offence are already too familiar to the public. Eilers presented a very dejected appearance in the prisoner's box, his confinement telling in a marked degree upon his strong constitution. He was not represented by counsel and pleaded guilty to the assault upon his wife but not guilty of carrying a concealed weapon. Marsden Bellamy, Esq., assisted Solicitor Duffy in the prosecution. The case of carrying concealed weapons was tried by a jury composed of Messrs. Louis Taylor, J. M. Mayland, B. N. Horn, Z. B. Ennett, C. W. Woolard, Chas. D. Foard, H. W. Konig, Jas. H. Cowan, L. M. Guttenburg, Geo. Harriss, G. W. Mote, S. R. Ellis and M. A. Jones. Only one witness testified—Mrs. E. B. Loughlin, a daughter of the cruel father, and from her evidence it was not contradicted that the pistol was secured by Eilers from a room in the club house where the shooting occurred. The jury retired with the case before dinner, but in the afternoon several members of the panel desired to recall Mrs. Loughlin, and that was allowed upon the court's convening in the afternoon. Fifteen minutes later a verdict of not guilty was rendered. Eilers was then called up for judgment in the case of assault, to which he had just submitted, and was sentenced to one year on the county roads. The maximum penalty for the offence charged is two years and the minimum is a fine or as little as one day's confinement in jail. In passing sentence upon Eilers, Judge Moore asked the prisoner a number of questions, to which he replied that he had always lived peacefully with his wife; that upon the occasion of the shooting he was drunk and had no recollection of shooting his wife or attempting to kill himself. Other than Mrs. Loughlin none of Eilers' family was in court during the trial.

Early in the afternoon Joseph Thomas, the negro who shot a colored deck hand on the steamer "Wilmington" Labor Day, pleaded guilty to charges of an assault with a deadly weapon and carrying a concealed weapon. Judgment was reserved.

Routine Proceedings.

Upon the convening of court yesterday morning, the sheriff returned 21 of the talesmen ordered summoned for the day. C. W. Edens, Geo. Robinson, J. T. Hawkins, J. A. Huske, A. F. Walsh, B. Kelly and Hosea Shepard were not found, and W. W. Blair, F. H. Griffith and J. E. Morris were excused by the court.

The following unimportant cases were disposed of during the day:

Louis Lavendar and Ernest Blount, larceny of goods from railroad; Blount not guilty; Lavendar guilty and sentenced to one year on roads.

Charles Hankins, larceny; verdict guilty; left open for investigation of another case of larceny.

Geo. Blount, carrying concealed weapons; verdict guilty; judgment left open for another bill for perjury committed in the trial.

Isaiah Singletary, assault with a deadly weapon, and carrying a concealed weapon; submitted to latter charge; verdict guilty as to first count; sentenced to four months on roads; judgment suspended in case of carrying concealed weapons.

Kate Fisher, larceny of money from James Gavin; verdict not guilty.

Work of The Grand Jury.

The grand jury will probably complete its work to-morrow. The usual visit to the county jail and the Court House was made yesterday. This morning the jury will likely begin its investigation of the murder of the negro, Sam Carver, Jr., which occurred in front of the Marine Hospital last Saturday night, the Herring brothers and young Jones, of Louisburg, N. C., being in jail charged with implication in the affair. Mr. E. H. Jones, a prominent business man of Louisburg and father of young Jones, arrived yesterday to look after the interests of his son and is accompanied by his attorney, T. W. Bickett, Esq., a leading member of the Louisburg bar. Mr. Jones is a brother-in-law of Mr. E. M. Andrews, the well known furniture man, and he has another son who is manager Andrews' furniture store in this city. Those who heard or read the evidence before the coroner's jury express doubt that the grand jury will return a true bill in the case. However, should a true bill be found and the case not be reached at this term, it is probable that habaes corpus proceedings will be instituted in behalf of the prisoners.

CUMBERLAND CONVENTION.

Sinclair Named Over McNeill—A Strong Legislative Ticket--Body Still in Session at 9 O'clock Last Night.

[*Special Star Telegram.*]

FAYETTEVILLE, N. C., Sept. 28.—One of the largest Democratic conventions ever held in the county was held in the court room here at noon to-day, H. L. Cook presiding, C. G. Rose, R. H. Dye and DeL. Smith acting as secretaries. In a brief, but able speech, Mr. Cook opened the convention and prayer was offered by Rev. T. A. Smoot, pastor of Hay Street Methodist Church. The roll of precincts was called and the whole twenty-three were present. After the committee on rules, credentials and permanent organization had retired for deliberation, H. L. Godwin, presidential elector addressed the convention with frequent applause. The committee still being at work, the convention adjourned until 3 o'clock, but not until four-fifteen did the credentials committee finish on which there was a majority and minority report, the former being adopted. The majority report on permanent organization named J. H. Myrover for chairman, and the minority report named G. M. Rose, whereupon the former moved that Mr. Rose be made chairman by acclamation, which was done.

Mr. N. A. Sinclair was placed in nomination for the Senate. Capt. J. D. McNeill developed great strength in the convention, but upon the adoption of the majority credential report, making it evident that Mr. Sinclair must receive the nomination, made a fine, bold, manly speech, withdrawing his name, and Sinclair was nominated by acclamation. For the house, two gallant Confederate soldiers—McGill and Thagard — were nominated, Messrs. Bullard and McKethan moving that it be unanimous. W. H. Marsh was renominated for sheriff by acclamation; also John B. Troy for treasurer. W. H. Walker was nominated for register of deeds. The convention at 9 o'clock to-night is balloting on county commissionrrs.

Y. M. C. A. RELIGIOUS DEPARTMENT.

Organization of the Work for the Coming Season—Bible Study—Other Notes.

The religious department of the Y. M. C. A. will be considerably enlarged and improved during the coming season. The growth of this work was very materially increased last year, but still greater things are expected the coming season. For the Sunday afternoon men's meetings during the Winter some of the best speakers have been obtained. The first meeting of the series next Sunday afternoon will be addressed by Dr. McClure, of this city—one who is so well qualified to speak to young men.

The Association male quartette has been reorganized for the season, with W. L. Williford, first tenor; Chas. Dushan, second tenor; F. S. DuPre, first basso, and William Muse, second basso. This quartette will sing at these meetings. Mr. Will Corbett has been secured as pianist for the season.

There will be a rally of the Bible class next Monday night for enrollment and general discussion of plans for the coming season. Dr. McClure, the teacher, will present an outline of the subject for study during next season. Fifty men were enrolled last year and it is hoped to make this 100 this season. The Bible class for boys will be materially enlarged also, as there are many boys over the age of 12 who are interested in Bible study and these will all be enrolled this year.

Luther League of America.

The Rev. Luther M. Kuhus, of Omaha, Nebraska, general secretary of the Luther League of North America, will speak on the work of young people to-night in St. Paul's Memorial Building. Mr. Kuhus is an interesting and inspiring speaker and will be able to impart valuable information. All persons interested are cordially invited to attend the lecture at 8:30 P. M.

Building Permits.

The following applications for building permits were made to the Fire Commission yesterday: Rogers & Thomas, two-story frame residence for Roger Moore, on Grace, between Second and Third streets; John Austin, addition to house on Campbell, between Seventh and Eighth streets; J. P. King, two-story buildings on Eighth, between Wooster and Damson streets.

THE CAROLINA CLUB.

Formal Presentation of Commodore's Cup to Yacht Puzzle Last Evening.

MOST PLEASANT OCCASION.

Racing Captains and Crews Delightfully Entertained at Home of Capt. S. P. Cowan, Owner of the Defender "Sadie"—The Trophy.

Fifty or more enthusiastic members of the Carolina Yacht Club, comprising the captains and crews of the racing fleet and Commodore John K. Williams of that popular organization gathered last evening at the hospitable home of their genial ex Commodore, Capt. S. P. Cowan, northeast corner of Third and Nun streets, and celebrated most auspiciously the formal presentation to the yacht "Puzzle" of the handsome commodore's cup, established by Commodore Cowan in 1902 and successfully defended by his smart and trim little yacht "Sadie" for three successive seasons. The reception and dining rooms of the home were most artistically decorated for the occasion in the club colors of red and white, a soft light from red and blue incandescents contributing wonderfully to the charm of the scene. Club flags and emblems were tastefully arranged to still further give striking effect to the general scheme.

The guests after having been received were ushered into the dining room, where the presentation took place. In behalf of Commodore Cowan, Thomas W. Davis, Esq., explained the object of the assembly and in graceful language presented the handsome cup to the Regatta Committee of the Club. The trophy was received in a most pleasing speech by Capt. Wm. F. Robertson, who paid a deserved compliment to the donor and the Defender "Sadie" and gave a brief history of yachting here and elsewhere, referring to the great international event, provoking applause by a commendatory reference to Sir Thomas Lipton. Capt. Robertson charmed his hearers with his address which, though extemporaneous, was really eloquent and captivating. He gracefully presented the cup to Capt. Jno. VanB. Metts, joint owner with his brother, Capt. E. A. Metts, in the "Puzzle," which won the cup this season. Capt. Metts responded in appreciative terms to Capt. Robertson for his complimentary reference and to Commodore Cowan for the loyal spirit ever manifested by him in the club's yachting, so nobly exemplified in the founding of the cup just delivered.

As that feature of the evening's entertainment was about to be concluded, Mr. R. C. Cantwell begged attention for a moment while he addressed the Captains Metts, stating that only a short time previously and too late to prepare a speech to fit the emergency, he had been unexpectedly requested by an unknown friend to present to the Messrs. Metts a "puzzle," which he was led to believe was a Chinese one from the color and characters inscribed thereon. So saying he handed to Capt. Metts a pretty yellow silk club flag upon which had been neatly painted a number of Chinese letters. With the admonition to solve the puzzle, Mr. Cantwell committed the flag to the keeping of the winners. Capt. Metts responded to the humorous remarks of Mr. Cantwell in an equally happy vein and the party turned to an unsuccessful effort to assist the captains in the task assigned to them by way of solution of the problem so suddenly thrust upon them.

Exercises over, the genial host bade the guests to partake of a delicious repast before them, consisting of wine and cake, ice cream, fruits and other delicacies, the refreshments as far as possible being served in club colors with a compliment to the "Puzzle" in the form of cake bearing the name of the successful yacht in letters of red. Upon the wall at the head of the table in graceful folds over a double picture of the winners of the cup, decorated with miniature club colors, was the companionship flag, also won this season by the "Puzzle." At the foot of the table, over the mantel, was the "Sadie's" flag bearing in letters of red a record of her victories. The affair in its entirety was most delightful and every one present silently voted Commodore Cowan an excellent host and a yachtsman whose affability is exceeded only by his enthusiasm in the cause.

The cup presented last night is a very handsome one and is beautifully engraved. On the front, with background, is an excellent inscription of the club name, emblem and the words "Presented by S. P. Cowan, 1902." On either side of the cup is inscribed the names of the captain and crew of the cup defender and those of the "Puzzle." The crews are as follows: "Sadie," Capt. S. P. Cowan, R. C. DeRosset, C. S. Grainger, W. D. McMillan, Jr., F. A. Lord and A. P. Adrian. "Puzzle," Capt. E. A. Metts, John VanB. Metts, W. C. Lord and J. E. Grant.

The cup also bears the names of the members of the Carolina Yacht Club Regatta Committee—Messrs. Wm. F. Robertson, George Davis and B. H. Bridgers.

At intervals last night the club members in attendance were entertained by several selections by the "Sadie Quartette," an impromptu organization, which afforded excellent music, concluding with the spirited singing of "Carolina."

Far-Famed Myrtle Hearing.

Herbert McClammy, Esq., returned yesterday from Southport where he was in attendance upon Superior Court, principally as associate counsel with Iredell Meares, Esq. for the petitioners in the celebrated Town of Myrtle case. Mr. McClammy had a number of matters in the Superior Court here and he was obliged to return to the city before the Myrtle case was taken up. It is not probable that the case will now be reached before the last of the week. Mr. McClammy says there are few cases of importance on the criminal docket at Southport and court will probably adjourn Friday. The speaking by Hon. R. N. Hackett did not take place Tuesday night, owing to the indisposition of the speaker.

Mr. Dickinson to Wed.

Friends in the city yesterday received handsomely engraved invitations bearing the following announcement of interest: "Mrs. Emma Mercer Walker requests your presence at the marriage of her daughter, Lillie, to Mr. Charles LaFayette Dickinson, Wednesday, October twelfth, nineteen hundred and four, at six o'clock, Grace M. E. church, Wilmington, N. C." Mr. Dickinson is a popular young insurance man of this city and Miss Walker is one of Wilmington's most charming young women.

Unusual Capture of Buck.

The crew of the steamer "Franklin Pearce" which left the city yesterday afternoon for points up Town Creek, captured a 200-pound buck just below the dram tree. The deer was trying to swim across the river and found the current too swift for him. In trying to stab the deer a man named Milliken was severely cut in the wrist by one of the crew and had to be brought back to the city for his wound to be dressed. The buck was displayed at the store of Brooks & Taylor.

Academy Last Night.

The production of "A Village Parson" at the Academy of Music last night merited a much larger patronage than it received, the house having been comparatively small on account of the very warm weather. The play is strong in human interest, points to a sound moral lesson and is acted by a company well able to handle the lines and situations.

FEATURES OF THE BIG SHOW.

John Robinson's Mammoth Tented Enterprise Here Next Wednesday.

John Robinson, the pioneer show man of the country, begins his eighty-fifth year of successful circus history this year. After months of strenuous work by scores of skilled artists, these mammoth shows will be seen in all their glory, a credit to the master showman's mind.

To enumerate all the many new and extraordinary features this old institution will offer during the coming season would tire the reader, but one European card, after a year's negotiation, has been secured, that for hair-raising devilry and skill will never be forgotten by the auditor.

All the now famous "loop" proposition pale into insignificance when compared with this, the latest cycling, the perpendicular loop act, which is accomplished by a skilled performer, who during the act is actually balanced on the shoulders, the entire apparatus, man and machine, by an intrepid equilibrist whose sole ability and skill keeps the ponderous plant in midair while the performer is moving the circle with the rapidity of lightning.

It required seventeen months to perfect this act, and will be seen for the first time here with the Robinson Shows.

The street car service will be of such ample proportions as to enable every one to reach the show grounds, see all the wonderous programme and reach home at a civilized hour.

It would be advisable, on account of the enormous crowds, to bring the children to the afternoon shows, where the menagerie and circus can be seen with comfort, and such a plan is suggested. The performances begin at 2 and 8 o'clock, doors open an hour earlier.

The big shows will exhibit at Wilmington, near Delgado Mills, next Wednesday.

NOVEL QUESTION IN WAKE.

Insane Wife Killer Now Restored to Reason Wants His Liberty.

[*Special Star Telegram.*]

RALEIGH, N. C., Sept. 28.—Judge Ferguson to-night refused a writ of habeas corpus, remanding Emitt Boyette, of Kinston, to the criminal insane department of the penitentiary, thereby declining to pass on the constitutionality of the act of the 1899 General Assembly, requiring that when a man is acquitted for murder on the plea of insanity and committed to the insane department of the penitentiary, he must remain there until liberated by a special act of the Legislature. Boyette killed his wife a year ago while insane. He is now pronounced cured and his lawyers demand his constitutional liberty without awaiting a liberating act by the Legislature in January. On advice of Judge Ferguson, counsel will take the case before the Supreme Court to-morrow and ask a ruling as to the constitutionality of the act.

"FATAL WEDDING" MONDAY NIGHT.

The Next Attraction at the Academy of Music—Sale of Seats.

Next Monday night the patrons of the Academy will have a pleasant surprise in store for them, when the "Fatal Wedding" will be seen here. The plot is a powerful one, and deals with the adventures of a scheming woman, who, assisted by a male accomplice, designs the ruin of a happy family, and the separation of wife from husband and children, in order that she can contract a marriage with the husband and thereby gain his fortune. She is prevented from doing this, however, by the timely interference of two characters, a Frenchman and an Irish servant woman, who, in their respective parts, create no end of amusement for the audience. The sale of seats will commence Saturday at Plummer's.

THE BOLL WEEVIL COMING ON.

The action of the North Carolina Agricultural Department in taking steps to prevent the introduction or invasion of the cotton boll weevil into North Carolina was not taken any too soon. In fact, we doubt whether any precautions will prevail, for it appears that the destructive cotton pest is destined to overrun the entire cotton belt. The STAR'S telegraphic news yesterday brought the alarming news that the boll weevil has been discovered as far east as Newton county, Ga., of which Covington is the county site. We see, therefore, that the weevil has progressed to a point considerably this side of Atlanta and we may as well prepare for the worst. The fact is we are not so sure that the weevil has not made its appearance in both North and South Carolina, as there have been suspicious reports from Robeson county, in this State, and from one of the upper counties of South Carolina. It may turn out that the honey bug, which devastates the strawberry fields around Wilmington, is the boll weevil or his first cousin, as its methods of destroying the strawberry blooms by puncturing them for the honey is similar to the work of the Texas pest.

A year ago we heard of no boll weevil this side of Texas, but the fact is the pest may have insidiously scattered over the cotton States without its presence being made markedly manifest. The STAR'S Washington dispatches yesterday, containing the Weather Bureau's weekly summary of crop conditions, acquaint us with the fact that in Louisiana boll weevils are "locally numerous in one parish and spreading in another," while the same source gives it out that in Mississippi "boll worms are causing damage in the southwest." Before this news was given out the Washington Post on Tuesday contained this editorial on the menace to the cotton industry:

It is becoming quite obvious that the insect known technically as the Anthonomus grandis and commonly as the Mexican cotton boll weevil must be reckoned with by those interested in the South's principal staple, whether they be producers, handlers, manufacturers, or consumers. Up to a year or two ago the weevil was looked on as more or less of a joke by those not conversant with the facts concerning it. Comment intended to be humerous was indulged in at the expense of the men dealing with the problems presented by its presence in the fields of Texas. So generally was it made the basis of jokes that many people came to class it with the kissing bug and other entomological myths.

But now the weevil is a very serious reality, and the country as a whole is beginning to take cognizance of the fact. In an exhaustive article in the October number of the World To-day, Mr. C. Arthur Williams gives the history of the insect up to date, tells of the vigorous efforts being made to extirpate it, and points out that materially higher prices for raw cotton, and, therefore, for the manufactured product, will inevitably be the result of its continued advance. It entered Texas from Mexico in 1894, and in the ten years which have elapsed since then has spread over a territory containing about 30 per cent. of the total cotton acreage of the country, which produced in 1900 about 35 per cent. of the total crop of the United States, or approximately one-fourth of the crop of the whole world for that year. In 1903, according to a census publication to which Mr. Williams calls attention, the insect destroyed 739,360 bales of cotton in Texas, the value of which the Census Bureau placed at $49,272,989.61. The estimates of the Department of Agriculture are lower than this, but it is obvious that the cause of even a fraction of the enormous loss which these figures represent must be regarded as an extremely dangerous enemy. Mr. Williams figures that the total loss to the agricultural interests of the United States through insect pests is about $350,000,000 annually, and, therefore, conclude that the damage to cotton from the weevil is proportionately much heavier than to the other crops from all the other pests combined.

So far no means of checking the spread of the weevil has been discovered. The State of Texas has a standing offer of $50,000 for a practicable and effective method of exterminating the bug, and an extensive campaign against it is being conducted by the Federal Department of Agriculture under an appropriation of $250,000 which was granted by Congress last winter after the President had made a specific recommendation for action of some kind in his annual message. A weevil killing ant, known technically as the Eciatomma tuberculatum, has been discovered in Guatemala, and transported to the United States, but there seems to be small hope on the part of the experts that it will accomplish the purpose for which it has been introduced. It is not known that they can hibernate in this country or propogate with sufficient rapidity to permit of its use over any considerable extent of territory.

In the meantime, Mr. Williams points out, the weevil is materially assisting the cotton bulls in forcing prices up to levels practically unknown since the civil war, and manufacturers and consumers of cotton goods, both at home and abroad, are becoming seriously alarmed by the prospects of higher values. The governments of several foreign countries are conducting extensive and costly experiments in the hope of ultimately being able to grow a sufficient amount of the staple to make their mills independent of the United States supply, and, according to Mr. Williams, official reports of favorable progress along those lines are frequently received here from our consuls.

On the whole, it is evident that this one small bug has made itself a very prominent factor in the cotton situation. Expert entomologists express the opinion that it will be found all over the cotton belt eighteen or twenty years hence, and some of them estimate the extreme damage it will then bring about $250,000,000 annually, or half the present value of a year's crop. The new and improved cultural methods advocated by the Department of Agriculture are being widely followed in Texas, to which State the weevil is still confined, and the possibility of raising at least average crops in spite of the pest has been demonstrated. Even though the weevil continues to spread, therefore, there is no immediate danger of the United States losing its position of supremacy in the world of cotton production. But permanently higher prices seem at least probable.

VICIOUS UNCLE JOE.

Old "Uncle Joe" Cannon is doing some vicious talk on the stump out in Nebraska. Judge Parker's statesmanlike position on the pension question has stirred up the Speaker of the House and he bitterly assailed Parker, in face of the fact that Parker proposes in a constitutional way to do for the old soldiers the very thing that Roosevelt did by his "order"—Parker, not by usurping legislative functions, but through the constitutional action of Congress.

But in his wrath Uncle Joe denounced Parker's constitutional way, and in declaring that the old soldiers would get no pensions under it, he said:

"Now, I ask you, Mr. Parker, if you are elected President, who will control the House of Representatives? Will not two-thirds of the Democrats in that body be made up of members from the South, and are they liberal people with pensions for the Union soldiers?"

That is a gratuitous fling at the South. The fact is that the South would have a contempt for the United States government if it did not provide for every soldier who made a sacrifice for the country as he saw that it was his duty, but the South is opposed to fraudulent pension grabs and the scandalizing of the name of soldier by Republican methods for political reasons.

It is not a question whether soldiers shall have pensions and plenty of them, but whether they shall have them according to the constitutional way or by executive orders that override all rights of Congress in the matter of such tremendous expenditure of the people's money at the hands of one man.

Uncle Joe's attention is invited to this fact: "There probably is a difference between a pension granted as a reward for service and one ed as a political charity offering." We got that arrow from the Washington Post, and it goes straight to the mark.

Says the Washington Post: "The talk about the manliness of college sports must be discounted by the reports of the students who are playing under false names for the purpose of deceiving their parents." The Post makes a palpable hit. It brings on the question whether sports are as elevated as they ought to be or whether false pride actuates young men who like the money in sports but prefer to get it sub rosa. Which?

Colds. Their Proper Treatment and Cure.

Commonly, the first symptom of a "cold" is a chilly feeling, accompanied by sneezing, or a tickling in the throat. The most frequent of external causes are draughts, wet or cold feet, or going from hot rooms suddenly into cold ones. More frequently there is an inner cause—namely the stagnation of the blood caused by constipation or biliousness. Almost the first symptom is the feeling of cold in the feet and increased discharge from the nose.

No one ever takes cold unless constipated, or exhausted, and having what we call mal-nutrition, which is attended with impoverished blood and exhaustion of nerve force. Tonics consisting of large portions of alcohol, iron or cod liver oil do not bring the desired changes in the blood, because they do not enter the system and are not absorbed into the blood, with the exception of the alcohol, which shrivels up the red blood corpuscles when it *does* come in contact with them. We recommend the botanical extract of Dr. Pierce because it contains no alcohol, and offers a reasonable and scientific method of treating the blood, by improving the nutritive functions of the patient. The "Golden Medical Discovery" accomplishes this, by first restoring the enfeebled digestive organs, so that food, the natural tissue builder, will be digested and assimilated.

Accept no substitute for Dr. Pierce's Golden Medical Discovery. There is nothing "just as good" for diseases of the stomach.

CURRENT COMMENT.

—— Anybody like to ask Judge Parker a few more questions? It does dot look as though it would be necessary for Judge Parker to supplement his message with a telegram.—Washington Post.

—— "All the cotton mills in Fall River are tied up. All the cotton mills in Columbia, S. C., are running on full time."—Savannah Press. And in the Fall River of the South more things are humming than cotton spindles, too.—Columbia State.

—— Thirty-five persons have deserted Zion City by reason of Dowie's robes and title. By degrees the victims are opening their eyes to the fact that religion and side shows are separate and distinct institutions.—Birmingham News.

—— Former Senator Peffer announces his return to the Republican party because President Roosevelt comes nearer than Judge Parker to the Populist's ideal of statesmanship. Chairman Cortelyou has not yet issued a bulletin boasting of the acquisition.—Washington Post.

—— No clearer knowledge of patriotic duty can be had by any voter than by comparing the letters of the respective Presidential candidates. They are the guideposts pointing the way each party will go if successful at the polls. Forming our deliberate judgment upon these letters, we believe that Judge Parker's guidepost points the safer, saner way to good government.—Philadelphia Public Ledger.

—— New York Times: It is the letter of a strong man, a man confident of the rightness of his views, and sure of his strength at every point. Yet Judge Parker's equipoise is diametrically the opposite of President Roosevelt's loud, insistent, blustering arrogation of all wisdom and virtue. Judge Parker is sure of himself because he is everywhere buttressed about by the constitution, because he at all times takes for his guidance and support the will of the people. Mr. Roosevelt speaks as one who disdains all help, all counsel, and relies upon the sufficing resources of his own mind and will. It is in this aspect that Judge Parker's letter commands unqualified approval and on rereading evokes new praise and admiration. It is a letter to be read not once but many times. The voter will be repaid.

COTTON MARKETS.

By Telegraph to the Morning Star

NEW YORK, Sept. 28.—The cotton market opened weak at a decline of five to twelve points, which was hardly a response to lower cables than looked for, including another big drop in the price of spot cotton in the English market, good weather over the South and fears that in spite of the export movement the heavy receipts would lead to a rapid accumulation of stocks at American points. The opening prices proved about the lowest for the session, for at the decline there was a good demand from room shorts for profits and offerings seemed less aggressive, and in some quarters it was said that the market had been oversold on the break. As the session progressed, bull support became evident in the winter months. This gradually forced the market up until in the middle of the afternoon prices showed a net gain of from eight to nine points. SPIRITS TURPENTINE.

— Hon. Hoke Smith is to speak in Charlotte October 3rd.

— Twenty Greensboro Nimrods have held a meeting and discussed plans to acquire 15,000 or 20,000 acres of land in Dare county for a hunting preserve.

— Salisbury Sun: Now that Gov. Aycock has had his say on education with the people of Maine it is announced that the superintendent of public schools of that State is to visit North Carolina in a few weeks. It is to be hoped that the gentleman is not another old granny imported for the purpose of scolding us.

— There was a homicide in the upper end of Richmond county Sunday evening. The murdered man was from Anson county and was named Jesse Ballard. The man who did the killing lives in Richmond county and is named Charley Bowers. Bowers has been arrested and is now in jail.

— Salisbury Sun: The Washington correspondent of the Charlotte Observer says that Hon. E. Spencer Blackburn was in New York yesterday and that he "expressed an abiding faith in the certainty of his calling and election." By reference to the file of the Sun we find that Mr. Blackburn did that very same thing two years ago before Hon. Theo. F. Klutiz licked him.

— Thirty-five young Americans who have been awarded Rhodes scholarships sailed for England on the Ivernia which cleared for Boston on Tuesday, to begin their studies at Oxford. Among the party were J. Tigert of Tennessee, J. H. Winston of North Carolina, W. H. Verner of South Carolina and T. R. Ashby of Texas.

— Greensboro Record: Mr. J. P. Caldwell, editor of the Charlotte Observer, met Judge Parker in New York last week and avers that he somewhat resembles Judge Ben Long, of this State. Such being the case, we are betting on his election from this time on. We don't know a thing about the actual conditions, but we do know that a man like Ben Long never gets a licking—hardly ever. He has an affidavit face and were he to get walloped no one could ever tell it by looking at him.

— A special from Charlotte on Tuesday says: Rev. Dr. A. J. McKelway, editor of the Presbyterian Standard and for the past year the editor of the Charlotte News, will shortly relinquish in part his local journalistic work to enter a wider field of labor. Dr. McKelway has accepted work of a literary character, the nature of which has not yet been given out, which will take him out of the State for a portion of his time. The current report that he would take a position in connection with the Ogden educational movement is denied by Dr. McKelway. The date when his resignation will take effect has not been made known. He will continue as editor of the Standard.

— Raleigh Post: It is certain that Messrs. John H. Small, Claude Kitchin, Chas. R. Thomas, Edward W. Pou, William W. Kitchin, G. B. Patterson, Robert N. Page and E. Yates Webb will be returned to the national congress by handsome majorities. It is admitted that in the eighth nd tenth districts, where Hons. W. C. Newland and James M. Gudger are the Democratic nominees, and E. Spencer Blackburn and H. G. Ewart are the Republican nominees, there is a fight going on, and the Republicans are expressing themselves as confident of victory. We are not willing to admit that they have the strongest grounds for their claims, but we do know that it is up to the Democrats to work hard an those districts.

— Charlotte Chronicle: The wage earners are fast realizing the value of saving a part of their earnings. Statistics show that the total deposits in the savings banks of the country increased from $1,235,247,371, in 1887, to $2,935,204,845, in 1903, which is an increase of about 140 per cent. in seventeen years. The individual depositors in 1903 numbered 7,605,228. This huge sum represents the savings of wage earners and small investors, in addition to the huge sums invested in building and loan associations, insurance, dwelling house and many other forms of saving. In Charlotte the saving habit is taking a strong hold and the people are securing homes of their own and accumulating money.

— A dispatch from Asheville to the Raleigh Post, under Tuesday's date, says: Something of a stir has been created here in political circles by the denial of the president, through his private secretary, Mr. Loeb, of certain charges made against the president by Capt. R. B. Glenn, the Democratic candidate for governor of North Carolina. In his speech at Waynesville last week and in his speech here last night, Capt. Glenn, in giving his reasons why ex-Confederates and Southerners should not vote for Mr. Roosevelt, said that the president had declared "that ex-Confederate soldiers were anarchists" and "that through the veins of Southern people there flowed a streak of coarse brutality." Chairman Rollins, of the Republican State executive committee, wired the president the substance of Capt. Glenn's remarks and asked if the president had been correctly quoted. To this telegram Secretary Loeb sent the following: "The statements you refer to are absolutely false." Capt. Glenn spoke at Hendersonville to-day. No counter-charge or re-affirmation of his statements has yet been received.

NOT MEXICAN WEEVIL.

The Insect Discovered in a Cotton Field Near Covington, Ga.

By Telegraph to the Morning Star.

COVINGTON, GA., Sept. 28.—The supposed boll weevil discovered on a plantation in the eastern part of this county several days ago, upon comparison with the real Mexican boll weevil, specimens of which were sent here this afternoon by the State entomological department, proves to be an entirely different insect, being of a different color and very much larger than the Mexican weevil. There are, however, serious apprehensions that it may prove as destructive as the Mexican insect. A number of the insects have been forwarded to State Entomologist Newell for examination.

JAPANESE ADVANCE FURTHER DELAYED.

Their Main Forces Still Concentrated Along Line of Yentai Branch Railroad.

ADVICES FROM PORT ARTHUR.

Losses in the Last Assault Reported at 7,000—Hundreds Blown Up by Mines. Decomposing Bodies Menace Health of the Garrison.

By Cable to the Morning Star.

Outpost skirmishes constitute the sum total of disclosed activities on the Liao and Taitse rivers in Manchuria. General Kuropatkin is reported to be keeping in contact with the entire Japanese front. Russian scouts report that the main Japanese force is centered in the vicinity of the Yentai mines. Fresh troops and convalescents are arriving at Mukden in large numbers. The railway north from Mukden is proving of much value to General Kuropatkin in bringing supplies for his army as well as reinforcements. Chinese arriving at Che Foo report that Japanese attacks on Port Arthur have resulted in heavy losses to the assailing forces, while the Russians suffered comparatively little.

Outpost Attacks.

ST. PETERSBURG, Sept. 28.—A dispatch received from Gen. Kuropatkin, dated yesterday afternoon, announces that numerous skirmishes have occurred along most parts of the Russian front. The Japanese have not altered their positions east of the railroad and confine themselves to outpost attacks to the north, all of which so far have been repulsed.

Reconnoissances by the Russian troops have established the fact that the main Japanese forces are still along the branch railroad to the Yental mines. Both sides are in constant contact. General Samsonoff's troops particularly have had frequent encounters, but have sustained very few casualties. The Russians have captured some Japanese cattle and horses.

The general adds: "On the night of September 26th, Cornet Mikheiff, with a detachment of Ural Cossacks, attacked the Japanese bivouacked at Khousandl, causing a great panic. The same day the Orenburg Cossacks laid an ambush for half a squadron of Japanese cavalry, who returned their fire, but soon retired, having sustained considerable loss and leaving several dead on the field."

The Japanese have constructed pontoon bridges over the Taitse river at Bentsihu.

Losses at Port Arthur.

CHE FOO, Sept. 28, 1:30 P. M.—Russians residing here claim to have received information that the Japanese losses in the last assault on Port Arthur which began September 19th, were seven thousand.

A Chinese who left the fortress on September 26th says that the Russian losses were between 500 and 600.

This Chinaman says that the Japanese were unable to remain in the three supplementary forts which they captured and that they retired at 4 o'clock on the afternoon of September 26th, after enduring several days of tremendous firing from the inner forts.

He adds that the Russians attempted to bury the dead on both sides at night because the decomposing bodies seriously menaced the health of the garrison. The Russians allege that it is the deliberate policy of the Japanese to undermine the health of the Russian troops by means of the odors from the decomposing bodies, and that for this reason they fire on the burial parties.

One Chinese who was a member of a burial party states that the Japanese fired when he and other Chinese attempted to bury the dead. He adds that when the wind carries the odors to the Japanese, the latter retire.

Chinese say that the most severe attacks were made on the supplementary forts of the Itz and Anshu mountain forts. The Russians had undermined the ground and several hundred Japanese were blown up on September 23d. Reports received from the Miaotao islands mention a terrific report which shook the houses there on that date.

The Russian ships, says the report, took no part in the battle. From thirty to fifty shells fell daily in the Chinese new town. One shell tore the rudder from a torpedo boat destroyer.

The Russians are now building a new fort on Liaoti promontory, bearing on the island side. Its construction indicates that five large guns will form the nucleus of the battery.

Situation at The Front.

ST. PETERSBURG, Sept. 28, 6:15 P. M.—The latest official advices from the front are silent on the subject of the Japanese flanking movements east and west of Mukden, from which the war office concludes that Field Marshal Oyama has not begun to press his advance from Suan Chan, or up the Liao river valley, indicating that there is still further delay in the general advance.

The Associated Press is now authorized to definitely deny that the Japanese in any force have crossed the Hun river about fifty miles from Mukden.

There is no evidence that the Japanese turning movement is nearly so extended. The only Japanese at this point are the scouts reported in these dispatches September 26th. The only information received from General Kuropatkin, timed 3 P. M. yesterday, is to the effect that the Japanese outposts east of the railroad along the Shake river continue to throw out small detachments, but they are invariably met and repulsed by the Russian cavalry which maintains close contact along the whole Japanese line. Daily skirmishes are occurring, but none of an important character. A herd of cattle and a few horses have been captured by Cossacks.

According to information brought in by Russian scouts the main Japanese forces are still concentrated along the Yentai branch railroad, and reinforcements are still crossing the Taitse river, using two pontoons at Bentsihu, five miles due east of Yental station. From the latter fact it would appear that the preparations for the Japanese advance are more backward than heretofore supposed.

The information received at the war office concerning the situation at Port Arthur is not reassuring. The blockade at last seems to be effective. Admiral Togo's ships are arresting all the junks which try to enter the harbor, and are sending them to Port Dalny. It is feared that this complete isolation may react on the spirits of the garrison.

Sunk by Mines.

LONDON, Sept. 28.—A dispatch to a news agency from Vladivostok says that according to reports from Port Arthur two Japanese torpedo boats and a Japanese steamer have been sunk by mines near Port Arthur during the last few days. A Japanese cruiser of the Nitaka type, it is added, was badly damaged.

NEGRO PROBLEM DISCUSSED.

Rev. Dr. Strange, Bishop Coadjutor-Elect, Addressed a Large Audience in St. Thomas' Church, New York.

By Telegraph to the Morning Star.

NEW YORK, Sept. 28.—Before an audience that filled St. Thomas' Episcopal church, in the presence of Booker T. Washington to-night, the Rev. Dr. Strange, bishop coadjutor-elect of the Diocese of North Carolina, declared that the one set factor in any real and practical solution of the negro problem was the entire separation of the races in social, scholastic, religious and domestic affairs.

When Booker Washington arose to speak, he virtually agreed with the bishop by saying the problem could not be settled by amalgamation or by deportation of the negroes, but by earnest sympathy and co-operation of the races, although his chief argument was for increased facilities for education and encouragement for those of his people in the South.

Bishop Coadjutor Greer presided over the meeting and said the question was one to be solved only by Christian standards. He then introduced Dr. Strange, whose topic was "The Responsibilities of American Christian Civilization to the Negro Race."

"We are brothers in all the best feelings, and we whites of the South feel our responsibilities for the black man, and are doing the best we can for him," said Dr. Strange. "We ask you that when anything happens down there that merits condemnation to condemn that specific thing and not the whole South and to set your faces resolutely against any outside political interference in the question, which raises false hopes in the blacks, irritates the whites and arrays race against race.

"The whites of the South must see to it that there is a complete separation of the races in schools, in churches and in domestic life. That is the one fixed factor. It is best for the whites and blacks and best for human progress. That being settled absolutely, so as not to give the miserable machine politician a chance to sound his slogan, the whites must give the negroes all rights, privileges and equalities before the ballot box and elsewhere."

BATTLESHIP CONNECTICUT.

Armed Marines at the New York Navy Yard Guarding the Vessel—Launching to Take Place To-day.

By Telegraph to the Morning Star.

NEW YORK, Sept. 28.—At the New York navy yard armed marines patrolled the enclosure wherein the final preparations for the launching of the battleship Connecticut are under way. Naval Constructor Baxter, who has general charge of the shipbuilding plant, said to-day:

"It is true that an obstruction was found on the ways down which the Connecticut is to slide into the water. It was sufficient to check the vessel. I will not say that it would have wrecked the Connecticut if it had not been discovered, and exactly what would have happened I am unable to tell. The obstruction was not a pile and no dynamite was found. It was, however, nothing that could have dropped from the ship or come there by accident."

Divers have gone down and inspected that portion of the ways which is under water every day since Saturday. A thorough inspection of the whole length of the ways will be made to-morrow immediately before the launching.

CONGESTION OF COTTON.

Blockade Due to Extraordinary Rush and the Scarcity of Labor.

By Telegraph to the Morning Star.

SAVANNAH, GA., Sept. 28.—President C. C. Hanson, of the Atlantic Compress Company, which controls the compressing of cotton in the South Atlantic States, made a statement to-day to the Savannah Cotton Exchange, relative to the congestion of cotton at the compresses in the interior. The blockade, he said, was due to an extraordinary rush of cotton to the presses and the scarcity of labor. Up to last Saturday night the presses of the Atlantic company had handled 232,000 bales since September 1st as against 111,000 bales for the same period last year. Extra time is being made by the compresses and Mr. Hanson hopes the blockade will soon be relieved, notwithstanding up to this time the accumulation at the presses has been growing.

The reception, unless some change is made, will be held on next Wednesday night. Invitations will be extended to the Democratic national committee, all members of the Parker Constitution Club and a number of other large Democratic organizations including Tammany Hall. It is likely that Justice D. Cady Herrick and Representative Francis Burton Harrison, candidates for governor and lieutenant governor, respectively, will attend. Judge Parker does not intend to speak at the reception, and in fact no speeches of any kind will be made, according to the present programme.

Judge Parker saw many visitors today. They included David B. Hill, Delancey Nicoll, vice chairman of the national committee; Don Farnsworth, of Illinois; Benjamin Ide Wheeler, president of the University of California, and several of the Democratic managers.

The headquarters of Judge Parker, whenever he visits New York, will be hereafter in the Hotel Seville. He has reserved his present apartment on the eighth floor and expects to visit New York frequently.

"This does not mean, however," said one of his managers to-day, "that the candidate will visit the city every week. He has no intention now of coming except when he feels that his presence will benefit the campaign."

In relation to a plan to divide the political campaign territory under various responsible heads, it was stated to day that National Chairman Taggart will not open permanent headquarters in the West. Mr. Taggart expects to visit Indiana, Illinois and Wisconsin at frequent intervals, but that will not take him away from the active management of the national campaign.

While Judge Parker was at luncheon Charles F. Murphy, leader of Tammany Hall, was shown to his room and there held a long conference.

At Democratic Headquarters.

Senator-elect Isidor Raynor, who was elected United States senator from Maryland last Winter, was at Democratic headquarters to-day and saw Messrs. Sheehan, Taggart, Nicoll, Belmont and David B. Hill, who was also a caller. After these gentlemen had been in conference for some time the announcement was made that Senator Raynor would take an active part in the national campaign and would speak in New York on Tuesday of next week. In an interview Mr. Raynor said:

"We people in the Southern States propose to discuss the race question from a conservative stand point. The South was solving this problem until the President undertook his disastrous policy which is absolutely injurious to the interests of every Southern commonwealth. He has brought this issue upon himself and the question must be plainly submitted to the people of the North, and they will give it their attention, because the Southern States furnish two-thirds of a sufficient number of votes in the electoral college to decide the election."

Western Headquarters.

An apparent settlement for the present of the question of the establishment of Western Democratic headqurriers was announced at the national committee rooms to-day. Members of the executive committee said no such headquarters would be established and Chairman Taggart said that letters and telegrams received to-day made it appear that the establishment of such headquarters was unnecessary. Mr. Taggart expects to go west and also to visit such other points as seem necessary, but unless something at present unforeseen occurs, there will be no regular Western branch, and the campaign will be managed from this city.

Senator Hill.

After his conference with Judge Parker early to-day Senator Hill saw a number of State leaders at his hotel and then made a trip down town. In the afternoon he went to the national Democratic headquarters and conferred with the managers of the campaign. Save to express his general satisfaction with present conditions, Senator Hill had nothing to say. While at headquarters he arranged for some future speaking dates.

KENTUCKY RACE TROUBLE.

Eighty Negroes Driven from the Town of South Fork by a Posse of White Men.

By Telegraph to the Morning Star.

HARRODSBURG, KY., Sept. 28.—Eighty negroes, thirty of them women, have arrived here from South Fork, which place they were ordered by the whites to leave because a negro stabbed a farmer's wife. It is reported that the white woman is dead. The negro men were working on a railroad near South Fork. One of the women at the railroad camp went to a farm house and demanded lunch. This was given her and while the hostess' back was turned, the negro woman snatched some clothes and ran away. The farmer's wife pursued and caught her, but was stabbed by the negress. The news of the affair spread rapidly and in a short time a posse of two hundred white men had driven all the negroes from the vicinity. The blacks will not be permitted to remain at Harrodsburg.

DASTARDLY ATTEMPTS

To Wreck Trains on the Chesapeake and Ohio Railroad Near Lynchburg.

By Telegraph to the Morning Star.

LYNCHBURG, VA., Sept. 28.—Two distinct efforts were made to-night to wreck trains on the Chesapeake and Ohio railroad, about two miles west of Lynchburg. Several large boulders were placed on the track and an east bound freight ran into them. As the train was moving slowly no damage was done. The crew of the late passenger train from Clifton Forge was notified. This train approached carefully and found that the obstruction had been replaced. No motive is assigned yet for these attempts.

LaFacadio Hearn, the well known author, died at Tokio, Japan, Sept. 26th, of heart trouble. His funeral will take place September 30.

SCHOOL CHILDREN STRIKE.

Because of Mistaken Belief That an Assistant Teacher Was Colored.

By Telegraph to the Morning Star.

CHICAGO, Sept. 28.—Fifty boy pickets stationed about the McCallister public school here, prevented pupils from entering to-day. None of the pickets is more than 15 years of age.

Outside the picket cordon, a crowd of 700 boys and girls hooted and yelled at the teachers looking from the school windows.

Every young striker wore a badge to show that he or she belonged to a "Union." Many of the strikers carried clubs. They threatened violence to any children daring to enter the school yard.

The picketing was the result of a "strike," which was caused by the mistaken belief of the children that an assistant kindergarten teacher was colored. The strike was settled by a detail of police.

McGOVERN AND MURPHY.

A Six Round Bout at Philadelphia That Ended in a Draw.

By Telegraph to the Morning Star.

PHILADELPHIA, Sept. 28.—Before a crowd that filled the National Athletic Club to-night, Hughey McGovern and Tommy Murphy, of New York, fought six of the fastest rounds ever witnessed in this city. Under the law no decisions can be rendered here, but it was the opinion of the spectators that the bout was a good draw.

There was only one knock down during the entire contest and that was at the beginning of the first round when Murphy went down from a right swing to the jaw.

BUBONIC PLAGUE

Broken Out on Board a British Steamship in the Tyne from Hamburg.

By Cable to the Morning Star

LONDON, Sept. 28. — Bubonic plague, it is officially announced, has broken out on board the steamship Bishopsgate, which arrived in the river Tyne to-day from Hamburg. When the Bishopsgate was discharging her cargo from Rosaro, Argentina, at Hamburg, recently, a number of rats that had died from the plague were found on board. On the arrival of the steamer at Jarrow the boatswain was ill and was removed to a floating hospital. The case proved to be undoubtedly bubonic plague.

COLLIERY EXPLOSION.

Two Men Killed and Nine Others Seriously Injured Near Scranton, Pa.

By Telegraph to the Morning Star.

SCRANTON, PA., Sept. 28.—Carrying a naked lamp into one of the old workings of Mount Jessup colliery, near Peckville, to-day, Paul Skovera caused an explosion of gas which caught a dozen men at work in the shaft, resulting in the death of himself and John Manoski and the serious burning of nine others. Five of the latter are so badly injured that their recovery is doubtful. The explosion was terrific, hurling the men along the gangway and enveloping them in the flames that followed the explosion. Great excitement was caused, the first reports having a dozen men killed. All the injured were sent to hospitals here.

Japs Ready to March.

LONDON, Sept. 28.—The Daily Mail's Liao Yang correspondent, telegraphing Sept. 28th, says:

"The Winter equipment for the Japanese troops is completed. Fresh supplies of ammunition have arrived and the army is ready to march at a moment's notice. The personal treatment of foreign correspondents with the Japanese has been completely revolutionized."

Ladies' Hats.

Our head milliner, Miss Alma Brown, has returned from a two week's trip North, where she had the pleasure of visiting and seeing every thing pretty and stylish in the Northern markets in the millinery world. She has selected a most excellent line of Paris fashion hats and we will soon be ready for our opening, and we think we can safely promise to show the ladies, if they give us the honor of visiting our store, a most excellent assortment comprising everything in this season's styles; we have a great many things that are cheap as well as new and stylish.

We have a full line of trimmings in all the different styles. Fancy buckles, velvets, an immense stock of ribbons, birds, flowers, wings and feathers. Miss Brown did not forget the prevailing colors of this season's styles. Our stock has been selected with care to suit this season's styles and colors.

Furniture, Furniture.

We have added to our store the new large new store which Mr. Parker occupied last year in the furniture business and we are receiving now daily our stock of furniture from the factories of this country. We expect to carry a complete line of furniture; in fact, we expect to have the furniture store of this town. In this store we hope to be able to furnish your house complete with all kinds of furniture, parlor suits, dining room suits, living room furniture, hall furniture and bedroom suits. Couches, lounges, book cases, bed springs, mattress bed springs, comforts, shades, carpets and mattings. A full assortment of crockery, chinaware, glassware, tinware, lamps, and, in fact, everything that is used in a house. This store will be our house furnishing store.

In the store that we now occupy we will be found everything that you may need to wear. The two stores will be connected by two arch ways and will be under one management, one cashier and one bookkeeper. In the future we will sell all our goods for cash. We will punch cards with every purchase and will give away more valuable presents than ever. In the future we will have a ladies' waiting room, in which they may rest, read or write at their pleasure. Every one is invited to visit our store, and we will suggest that out of town ladies will make this their headquarters. I can assure them they will have a hearty welcome and every convenience will be furnished that they should need, free of cost, at
